The Citation 550 (Citation II) is a light twin-engine business jet developed from the Citation I. The standard Model 550 was originally certified for two pilots under FAR Part 25, but certain aircraft can legally be flown single-pilot under:

- * FAA Single Pilot Exemption Programs, or
- * Factory-Certified Single-Pilot Variant, the Model 551 Citation II
- * Factory Single-Pilot 551/SP Model, or
- * Under an FAA Single-Pilot Exemption for Standard 550 Aircraft

A properly configured single-pilot Citation 550 is still considered one of the more economical and capable legacy light jets for owner-operators, but safe operation depends heavily on:

- * Avionics Modernization
- * Autopilot Reliability
- * Disciplined SOPs
- * Recurrent Simulator Training
- * Strong IFR Proficiency
